

Put Windows on Your Mac

Get your Mac Ready

Apple computers configured according to these guidelines will meet the computer requirements for undergraduates at **Paul College, TSAS**, and certain **CEPS** majors as follows:

Hardware:

All Mac computers that will run the Windows operating system should have a minimum of **4GB RAM** and **128GB** storage. **8GB RAM and 256GB storage is recommended.**

Software:

UNH-supported “Windows on Mac” package, which includes:

- **Parallels Desktop for Mac** \$49⁹⁵
Run both Windows and Mac operating systems side-by-side and enjoy an integrated experience.
- **Microsoft Windows 10 64-Bit**
Microsoft’s latest operating system. Run the full version of Windows on your Mac. Parallels requires this to work. UNH now offers Windows 10 to students for free. Student must download a Windows product key and provide it to Computer Repair Services for installation by visiting unh.onthehub.com. A UNH Computer Store sales person can offer guidance with this process if asked.
- **UNH IT Out of the Box for Parallels** \$113⁰⁰
With Out of the Box for Parallels, technicians from UNH’s service center upgrade the computer into a fully-functional dual-platform system with Windows installed and ready to use. Also, get free back-ups and rebuilds if you need warranty repair. Call (603) 862-4242 for details.

Software is available at the UNH Computer Store.
Installation performed by Computer Repair Services, located next to the store.

All software & installation available for

\$162⁹⁵
